A terminal window titled 'zpaulson@localhost:~' with three tabs. The active tab shows a menu-driven program. The menu options are: 1. Option 1: Print Hello, 2. Option 2: Display Date, 3. Option 3 (Sub-menu), 4. Option 4: List Files, 5. Option 5 (Sub-menu), 6. Option 6: Print Goodbye, and 0. Exit. The user enters '2', and the program displays 'The current date is: Thu Dec 7 08:39:49 PM EST 2023'. The menu is shown again, and the user enters '0'. The program outputs 'Exiting...' and returns to the shell prompt '[zpaulson@localhost ~]\$'.
